## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on April 20, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,482,361 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 11-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor fairly suggest a method in a suction device which has a body and an associated end part with an open distal end directed away from the body for removably attaching a tip enclosing a sample space for receiving a liquid sample, the end part of the suction device enclosing a cylinder space containing a plunger, the method comprising the steps of: providing a barrier in an opening in the end part of the suction device the barrier preventing liquid from passing into the cylinder space; changing the volume of the cylinder space for receiving a sample into and removing a sample from the tip, the volume of the cylinder space being changed with the plunger; detaching the barrier from the end part of the suction device by moving the plunger first in a direction of the opening in the end part of the suction device into contact with the barrier and then by moving the plunger in the direction of the opening for removing the barrier from the end part of the suction device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

4. Applicant's arguments, see remarks, filed April 20, 2004, with respect to the rejections of claims 11-20 have been fully considered and are persuasive. The Final Rejection of claims 11-20 has been withdrawn.
